ABSTRACT

This is the 10th in a series of bibliographies of those documents related to the teaching of foreign languages available from the ERIC Document Reproduction Service. This list consists of documents processed into the ERIC system by the various clearinghouses from May 1972 through September 1972. The 377 entries are arranged in alphabetical order by author, and a user index of 15 topics is provided. Each citation refers the reader to the page and issue of Resources in Education (RIE) where he or she can examine an abstract of the document. Price information for microfiche and hard copy reproductions is also given. (PMP)

SUBMITTING DOCUMENTS TO ERIC

The success of the ERIC system depends largely on its being widely used by the educational community it is designed to serve. But to an even greater extent its success depends on the acquisition of current, significant documents. Without these the system cannot exist. *Here we turn to you for help.* We request that every author make a practice of insuring that the MLA/ERIC Clearinghouse receives two copies (if possible) of any document he thinks falls within our scope. We seek not only your typical research reports with their hypotheses, test methods, and findings, but also published and unpublished conference papers, newsletters, speeches, curriculum guides or studies, interim project reports, books, and other works that you believe will have value for FL and TESOL teachers, linguists, administrators, researchers, and the public. If the document is typed, mimeographed, or dittoed, the copy should be sharp and clear, or it cannot be processed. If the document is copyrighted, it will *not* be processed into the ERIC Document Reproduction Service (EDRS) without written permission. But if accepted, *information about it* (bibliographical data, abstract, and indexing terms) will be prepared and processed into the Central ERIC computer system, so that it will appear in retrieval bibliographies and be otherwise publicized in the ERIC system. *Language-teaching materials (e.g., texts) are normally not considered by MLA/ERIC.*

ERIC Documents on the Teaching of Foreign Languages: List Number 10

Carolyn Monka and Dorothy Gregory

THIS is the tenth in a series of catalogues of those documents related to the teaching of foreign languages which may be obtained in microfiche or hard copy from the ERIC (Educational Resources Information Center) Document Reproduction Service. The list was compiled by means of a close search of computer-generated catalogues of comprehensive ERIC accessions which have been fully processed into the system by the U.S. Office of Education, the MLA ERIC Clearinghouse, and other ERIC Clearinghouses from May 1972 through September 1972. Attention is called to the fact that a significant number of ERIC documents having primary interest in other fields (e.g., psychology, administration, theoretical linguistics, sociology, etc.) also have some relevancy to foreign language teaching but are not included here.

This is not a classified bibliography. Entries have been listed only in alphabetical order, since categories change from list to list, reflecting the subject matter of foreign language documents processed into the ERIC system during each six-month period. However, a USER INDEX is provided below which will help the reader identify documents on fifteen special topics. (All documents accessioned into the ERIC system are subjected to a coordinate indexing procedure and in each case bibliographical information, abstract, and indexing terms are stored on magnetic tape. Thus, it is possible to obtain computer-generated bibliographies on special topics.)

The cost of microfiche (MF) is $0.65 per title, regardless of the length of a document. The cost of hard copy (HC) is $3.29 per title, unless noted otherwise in the report citation. For instructions on purchasing ERIC documents, see the box entitled "How to Order ERIC Reports."

HOW TO LOCATE AN ABSTRACT

The concluding information in each citation refers the reader to the page and issue of *Research in Education* (*RIE*) where he can examine an abstract of any document, e.g. [*RIE* (Jul 1972) 69]. *RIE*, published since November 1966, is a monthly abstract catalogue of reports, studies, articles, etc., which have been processed into the ERIC system since 1966. This reference journal may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (subscription per year: domestic, $38.00; foreign, $47.50; single issue, $3.25).

User Index

Documents relevant to each of fifteen subjects are identified below by the bibliography citation number. These topics were chosen because they reflect the bulk of inquiries that have been received at the MLA/ERIC Clearinghouse on Languages and Linguistics, and because they cover the majority of documents processed by MLA ERIC into the ERIC system. Frequently, a document is identified under more than one subject; this system of multiple indexing allows the user to locate specific documents by searching for recurring numbers in the sections which most closely define his needs. Occasionally, however, a document does not fall into any of the categories, and it should be noted that many valuable and informative papers cited in *List Number 10* are not retrievable through the User Index.

In most cases, the *General* subheading includes documents which are of a broad or theoretical nature, or those which cover two or more of the specific subheadings in a given category. *Other* indicates documents which apply to individual languages that are not listed separately within that section. CULTURE AND LITERATURE includes documents which provide background information on a culture, or those which actually treat the teaching of culture and literature in the classroom. Listings in TEACHER PREPARATION include teacher training as well as background information which may be of value to the practicing teacher. LINGUISTICS AND FOREIGN LANGUAGE TEACHING indicates only those ERIC documents on linguistics which may be of practical use to the teacher, or which discuss more generally the relevance of linguistics to foreign language instruction.

About ERIC—Educational Resources Information Center

ERIC is a nationwide information system designed to serve and advance American education. It is sponsored by the National Institute of Education and supported by the U.S. Office of Education. The system's basic objectives are to provide information on significant current documents and to make them available, either through normal publication channels or through the ERIC Document Reproduction Service. ERIC Clearinghouses each focus on a separate subject-matter area, seek to acquire, select, abstract, index, store, retrieve, and disseminate information about educational research and resources.

About MLA/ERIC. The Modern Language Association of America conducts the ERIC Clearinghouse responsible for the collection and dissemination of educational information on languages and linguistics. This includes information on instructional methodology, psychology of language learning, presentation of the cultural and intercultural content, application of linguistics, curricular problems and developments, and teacher training and qualifications specific to the teaching of languages. Also included are reports or documents concerned with the language teacher and researcher in the language sciences and those dealing with psycholinguistics, theoretical and applied linguistics, language pedagogy, bilingualism, and instructional materials related to commonly and uncommonly taught languages, including English for speakers of other languages.

Research in Education (RIE). The comprehensive source of information about all current document accessions is *RIE*, a monthly catalogue which presents bibliographical information, abstracts, and prices of documents processed by all the ERIC Clearinghouses. This basic reference tool should be available in any education library. (Yearly subscription is: domestic, $38.00; foreign, $47.50. Check or money order should be sent to the U. S. Government Printing Office, Washington, D. C. 20402.)

ERIC Document Reproduction Service (EDRS). Most documents which ERIC announces in *RIE* are permanently archived in the EDRS, from which copies may be purchased in microfiche or in printed out "hard copy." Microfiche is inexpensive and easily stored, but requires access to a microfiche reader. Hard copy is a paper photo copy or facsimile of the original document. It has a paper cover and is not hard bound. (MLA/ERIC is *not* the EDRS. The address for orders is EDRS, P.O. Drawer O, Bethesda, Md. 20014.)

Current Index to Journals in Education (CIJE). More than 500 educational periodicals and approximately 1,000 articles are indexed monthly. A main entry section and subject, author, and source journal indexes are provided. Index subject headings are consistent with those in *RIE*; unlike *RIE*, abstracts are not included. Articles cited are available neither in microfiche nor hard copy from EDRS. Annual and semi-annual cumulations are also available. (Yearly subscription is $44.00; semi-annual and annual cumulative indexes to monthly subscribers, $45.00; check or money order should be sent to CCM Information Corporation, P.O. Box 689, FDR Station, New York, N. Y. 10022.)

Regular Communication Channels. The official journal of the American Council on the Teaching of Foreign Languages, *Foreign Language Annals (FLA)*, regularly includes a section on ERIC-related activities prepared by the MLA/ERIC Clearinghouse. This material reviews significant developments in foreign language teaching and is of interest to teachers, administrators, researchers, public officials, commercial and industrial organizations, and the public. The *TESOL Quarterly* also contains regular listings of ERIC accessions dealing with the teaching of English to speakers of other languages.

Annual Bibliography on the Teaching of Foreign Languages. MLA/ERIC supports the preparation of an annual bibliography of professional and pedagogical documents in collaboration with the American Council on the Teaching of Foreign Languages and the University of Minnesota; it is printed in the May issue of *FLA*.

Lists of ERIC Documents on the Teaching of Foreign Languages. MLA/ERIC prepares such catalogues, each compiling all foreign language teaching documents which have become available from the EDRS since the previous list, whether accessioned by MLA/ERIC or any other ERIC Clearinghouse. The lists include bibliographical data, microfiche and hard copy costs, and citations of ERIC-prepared abstracts. These lists appear regularly in the October and March issues of *FLA*.

Special MLA/ERIC Reports. MLA/ERIC regularly sponsors the preparation of analyses on special topics, including detailed treatments of substantial problems in "state-of-the-art" papers, special bibliographies, and a continuing series of *ERIC Focus Reports on the Teaching of Foreign Languages*, each providing succinctly detailed, recent information on a specific problem or issue in foreign language teaching (with a short list of further readings) addressed to classroom teachers and school administrators. *FLA* carries information about special MLA/ERIC reports.

Direct Information Services. MLA/ERIC can provide only very limited services to individuals and agencies. The Clearinghouse is not staffed to provide individually tailored bibliographies, but it will offer whatever relevant "shelf" items or references may be available.
